

INTRODUCING GDEVCON

Help us to spread the GDevCon love around the world

Established 2017

HOW CAN YOU HELP US?

Share information about our event

We know that everyone is super busy but if you have just a few minutes to share our information with your network, customers, colleagues and/or peers we would really appreciate it!

This pack contains some background information about GDevCon, the team behind the event and details of GDevCon#7 taking place on 22 – 24 September 2026 in Brussels.

We have also created a single slide which you could add in to your own presentations, and an image which can be shared on social media.

As an independent and not-for-profit event we love active word of mouth to spread the word!

Thank you for supporting GDevCon.

ABOUT US

WHAT IS GDEVCON?

GDevCon is an **independent** conference open to all graphical developers.

Organised by leaders in the LabVIEW™ community, it is focused on delivering world-class graphical programming material covering a wide spread of topics relevant to today's discerning developer.

It is a not-for-profit event run by volunteers.

The event started off in Europe but also has spin-off events in North America and Australia/New Zealand.

THE EVENT

- Three day conference
- Presentations by LabVIEW & Graphical Developer peers from around the world
- Run by community leaders
- Independent from system vendors
- Focused on real problems encountered everyday by graphical developers

WHO IS BEHIND GDEVCON?

GDevCon is run by a group of community leaders, seeking to develop an inclusive environment for graphical programmers through development of an independent event.

There are currently 11 volunteer members:

Joerg Hampel

Steve Watts

Chris Woodhams

Richard Thomas

Kabul Maharjan

Chris Roebuck

Sarah Fisher

David Catto

Tom McQuillan

Ioan Polenciuc

Anders Sekanina

WHO IS OUR AUDIENCE?

The event has a wide range of attendees, but the majority have more than 10 years of experience working with LabVIEW.

They come from a variety of different sectors including:

- Automotive
- Aerospace/Defence
- Energy
- Manufacturing
- Consulting – System Integration

Each year we attract new members of the community but we want to spread the word even further and open the event up to those who are less experienced.

Attendees come from all over the world to be at the event. The majority are from mainland Europe but we also attract those from North America and Asia.

More information about last year's audience can be found in our Event Report – <https://bit.ly/G6EventReport>.

GDEVCON#7

EVENT

INFORMATION
